

Purpose Built For Small & Medium Businesses

## MANAGED DETECTION & RESPONSE Lean

Security made easier, more affordable and smarter with AI powered Security Operations Center (SOC) and VisionX MDR

### Managed Detection & Response powered by Smarttech247

Don't be restrained by budgetary or staff resources anymore! Our comprehensive Managed Detection and Response (MDR) solution powers your business - in a simplified and cost-effective way. MDR Lean© is our new lightweight, AI-enabled managed detection and response solution encompassing 24/7 real-time monitoring & incident response, advanced threat detection and continuous threat intelligence for your EDR technologies. Smarttech247 MDR Lean© is built to deliver a tailored security experience - for organizations of all sizes.

### Starting from €4.16/user/month

- 24/7 Logs & Event Monitoring
- Inbuilt SOAR Integrations
- Threat Detection & Response
- Threat Investigation & Correlation
- Incident Alert & Notification
- Remediation Support

### Unleash the true power of your EDR technology with Smarttech247 experts:

**Consolidated Technology:** Granular level insights & advanced threat correlation with expert-led VisionX & MDR technology.

**Automated SOAR Workflows:** Reduce manual workload by streamlining log telemetry using expert analysis and improve security efficiencies.

**Proactive Threat Hunting:** Expert led hunting and investigation at scale, leveraging inbuilt tools to perform advanced hunting query.

#### + AI DEFENSE

VisionX AI technology & Smarttech247 enables faster detection and response, providing 24/7 monitoring and global threat defense.

#### + SECURITY OPTIMIZATION

Finetune your security tools for your business needs with added excellence from experts, without sacrificing affordability.

#### + DATA LED RISK MANAGEMENT

Higher degree of visibility with expert detection & Smarttech247's best-in-class capabilities to prioritize risks better.

#### + FAST PERFORMANCE

Faster and enriched incident response provided by the Smarttech247 IR teams.

## Moving beyond 'good enough' security

Our extended SOC support with VisionX MDR and complementary security solutions including NIST Self Scoring Assessments, NoPhish Email Security and CISO Hub equip you with an all round security that is beyond 'good enough'.

■ Power Incident Response with VisionX

■ Intelligent SOAR driving AI & automation

■ Complementary security for 360° defense

■ Empowering teams, from manager to CISO

## + MANAGE RISKS FASTER & BETTER

Prioritize and view risks faster using the VisionX consolidated MDR capability & get practical insights into risk mitigation, incident management and more.

## + TACKLE COMPLIANCE WITH EXPERTS

Let experts implement the right security measures, helping you report better and achieve compliance faster.

## + DETECT & RESPOND FASTER

Combine behavioral analytics with expert led threat hunting & investigation to detect and respond faster & scale with SOAR integrations and automations.

## + CUSTOMIZE AS YOU SCALE

Move away from 'one-size-fits-all' security and let experts customize policy configurations, set up well-defined rules and build your business cases, adapting to threat landscape.

## Tailored to protect your business, from Day 1

 EASY

### Reduce workload & move beyond reactive security

With MDR Lean®, integrate your existing security technologies to synchronize inherent functions, improving security efficiency - fast. Additionally, our SOC seamlessly augments to your SecOps/IT teams, providing you with an 'expert on demand' capability, around the clock.

 AFFORDABLE

### Get more value for money

Powered by rapid security deployments and streamlined processes, our experts effectively monitor your environment 24/7, fine-tune your systems and cut-through the noise, alerting you on incidents that truly matter. With advanced automation, quick set-up and expert insight, incident response is made 10X easier, helping you shift your focus to security maturity.

 SMART

### Smart, scalable and flexible for max performance

MDR Lean® is smart and is built to scale with your growing security needs. Make business decisions based on data-driven inputs from security technologies and our expert advice. Get an added element of expert judgement and enriched context that standalone security tools will fail to provide you.

## ELEVATE YOUR SECURITY

MULTI-AWARD WINNING TRUSTED PARTNER FOR LEADING GLOBAL ORGANIZATIONS TO KEEP THEM SECURE
